The Village has encouraged customers to sign up for electronic utility statements. Our most recent survey reveals that few customers (approximately 20 out of 900) value this change in billing. The Village expense for this added service cannot be justified considering the level of interest. Such an expense may be justified in the future. Residents will continue to receive their utility bill in the mail each month.

Our online payment processing has been a success! You can continue to make your payment online or you can mail in a check if you prefer.
